Recipient 2015
Lindsey Bass
Virginia Tech

Lindsey is a senior double majoring in Mechanical Engineering and Music Performance from Pasadena, MD. An active member of the DREAMS Lab since the summer of 2014, she is also involved in additive manufacturing (AM) research at the National Institute of Standards and Technology (NIST.) Her interest of combining creativity with technology and hands-on engineering increases her drive to continue pursuing AM. She has been recognized with the “Best Poster Award” at the 2015 International Solid Freeform Fabrication Symposium for her conference paper. She is currently conducting materials research with both binder jetting and material jetting systems.
