The Michigan section held its meeting on November 7, 2017. Sam Davis, NCSLI section coordinator welcomed all attendees and thanked them for

taking time out of their day to attend the fall section meeting. Lloyd Baker started off with a brief presentation on the importance of being an NCSLI member and the benefits that come along with it. He also briefly touched on the new release of ISO/IEC 17025.

NCSLI Michigan Meeting.

Lloyd Baker, General Motors.

Next Michael Schwartz from Cal Lab Solutions gave a presentation on “Metrology.Net” and how this software can be used with programming languages, databases or operating systems. Next up Grant Shaffer with Interface, Inc. Grant presented on how load cells work and the applications to consider when choosing your load cell, and factors that impact the accuracy of a load cell. At the end of his presentation there was an interesting discussion about the contributors to uncertainty of load cells.

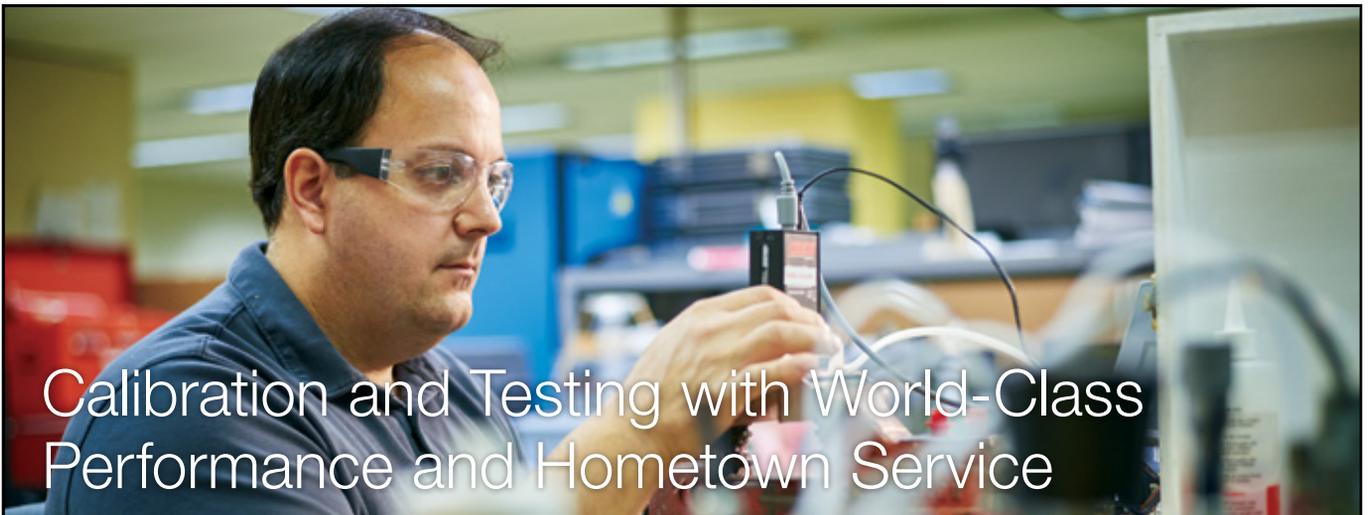

Mike Schwartz, Cal Lab Solutions.

Grant Shaffer, Interface Inc.

After the delicious lunch prepared by the chef from the culinary school at Schoolcraft College, Mike Schwartz gave his second presentation on “Creating a Machine Readable SoA.” Lastly, Lloyd Baker presented “Torque and Torque Angle,” (Martin Schatz was unable to attend).

LAB SERVICES, your single source for testing and calibration needs offers world-class performance while delivering hometown service. We’re bringing industry-best practices and services right to your doorstep.

We are accredited to ISO/IEC 17025:2005 by the American Association for Laboratory Accreditation (A2LA) see our scope. Our program also meets the nuclear requirements 10CFR50 Appendix B, along with ANSI/NCCL Z540-1-1994.

All this capability backed with more than 100 years of experience.
