

Central Florida Section 1222
Elwin Speary, Section Coordinator
Hosted By: Sypris Test & Measurement
October 25, 2007

The Region 1222 Central Florida Section of the NCSL held their fall meeting on October 25, 2007 at Sypris Test & Measurement in Orlando, Florida. Our hosts

Paul Bessette and Mark Lapinskes of Sypris Test & Measurement welcomed the speakers and attendees and provided a brief summary of Sypris's business operations and the Calibration Facility. To kick the meeting off, Sypris provided a large assortment of pastries and coffee to the members. Our fall meeting hosted 34 attendees from 20 different companies.

Our guest speakers included Matt Millard of Vibration Research Corp. who provided a presentation on Vibration Control Systems; Randy Fowler of Fluke Corp. who provided presentations on "IR Thermometry Calibrations" and "New Signal Sourcing for Spectrum Analyzer Calibrations"; and Mark Lapinskes of Sypris Test & Measurement, who provided a presentation on "NCSLI Education Initiatives for 2008." In addition there was a short presentation, provided by Elly Speary of Lockheed Martin Corp., on "Weights and Measures as it relates to Commercial Trade." The final event for the day was a tour of the Sypris Test & Measurement Calibration Facility given by Mark Lapinskes of Sypris.

Matt Millard, Vibration Research Corporation.

Mark Lapinskes, Sypris Test & Management

We would like to thank all of our presenters, their respected companies, and NCSLI for providing a great meeting.

We would like to give special thanks to Paul Bessette and Mark Lapinskes of Sypris Test & Measurement for hosting and sponsoring this conference. ■
